A game where pieces fall down from the top of the screen and you rotate them to complete lines across 10 blocks. Once a line is created, it disappears from the screen, and points are gained. The amount of points you gained is based on how many lines you clear with a single piece, and the level you're on. The level is based on how many lines you have cleared so far, every 10 lines increases your level by 1. You lose when the blocks are stacked to the top.
